

A9X

VoodooShield

You lock your office, house and car, now lock your computers. Best protection from zero-day malware. Keeps your PCs safer and makes your I.T Team's job easier.

VIRUS PROTECTION LIKE NO OTHER

Instead of trying to block all the bad stuff, VoodooShield only allows the good stuff to run. It's not a filter, it's a lock.

NO UPDATES NEEDED EVER

Requires no daily, or weekly updates. No downloads mean it's perfect for costly, data-circuits Fleet BroadBand.

ZERO DAY PROTECTION

All unknown, unauthorized applications are automatically blocked. This provides the best protection against zero-day malware that anti-virus applications cannot block.

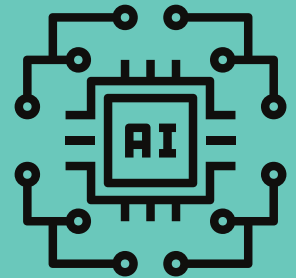

TOGGLES ON WHEN WEB BROWSING

Your PC is in danger when web browsing. VoodooShield toggles **ON** to block unknown applications from running.

INTELLIGENT, LEARNING MODE

VoodooShield learns and auto allows the applications the user launches when PC is not at risk (i.e. not reading mail, browsing web or using USB storage devices).

TOGGLES ON WHEN READING E-MAIL

Your PC is also in danger when reading e-mail. VoodooShield toggles **ON** to block unknown applications and malicious code from running when opening attachments.

TOGGLES ON WHEN USING USB DEVICE

Your in danger when using USB storage devices. VoodooShield toggles **ON** to block unknown applications from launching. Protects updating of OT equipment (that is running Charting and Navigational software).
